

BEFORE THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CRUZ,
STATE OF CALIFORNIA

RESOLUTION NO. 26-2025

On the motion of Supervisor Koenig:
Duly seconded by Supervisor Cummings:
The following Resolution is adopted:

RESOLUTION ADOPTING THE MITIGATED NEGATIVE DECLARATION FOR 25 UNIT
RESIDENTIAL SUBDIVISION (Application Number 221077)

WHEREAS, on December 11, 2024, the Planning Commission of the County of Santa Cruz held a public hearing on Application No. 221077, involving property located within the Live Oak planning area and forwarded recommendations to the Board of Supervisors for further consideration; and

WHEREAS, the Board of Supervisors for the County of Santa Cruz has convened a duly noticed public hearing to consider the proposed project and proposed adoption of a Mitigated Negative Declaration, and considered public testimony prior to taking action.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED, that the Board of Supervisors hereby makes the following findings and hereby adopts the attached California Environmental Quality Act (CEQA) Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program (MMRP) related to the proposed project.

1. The project that was the subject of environmental review includes but is not limited to the following components: a 25 unit residential development project including the following approvals: Planned Unit Development, Subdivision, Residential Development Permit with Density Bonus, Roadway/Roadside Exception, and Preliminary Grading Review.
2. Environmental review completed for the proposed project determined that the proposed project, as mitigated with identified mitigation measures, will not have a significant impact on the environment, and therefore a Mitigated Negative Declaration has been prepared in accordance with CEQA, which was circulated for public comment and review as required. An Initial Study was prepared, and the project was reviewed by the County's Environmental Coordinator on September 16, 2024. A preliminary determination to issue a Mitigated Negative Declaration was made and the Mitigated Negative Declaration was circulated on September 16, 2024. The mandatory public comment period ended on October 16, 2024. Comments were received and considered by staff. The Planning Commission reviewed the project and the Mitigated Negative Declaration at a noticed public hearing on December 11, 2024 and recommended approval of the project and adoption of the Mitigated Negative Declaration to the Board of Supervisors. Furthermore, all public comments received regarding the environmental review have been considered and do not change the determination that no significant impacts will result from this project.

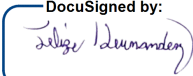

Resolution 26-2025

3. The Board of Supervisors in adopting the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program (MMRP) is requiring that mitigation measures be incorporated into the Project, and the Board of Supervisors finds that implementation of these mitigation measures will reduce any potentially significant effects of the proposed project to a less than significant level.
4. In adopting the Mitigated Negative Declaration, the Board of Supervisors finds, on the basis of the whole record before it, that there is no substantial evidence that the project will have a significant effect on the environment, and that the Mitigated Negative Declaration reflects the lead agency's independent judgement and analysis.
5. The material which constitutes the record of proceedings upon which the Board's decision is based shall be located in the offices of the Clerk of the Board, located at 701 Ocean Street, Santa Cruz, California.

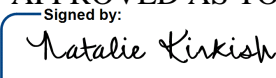

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Cruz, State of California, this 25th day of February, 2025 by the following vote:

AYES: Supervisors Koenig, De Serpa, Cummings, Martinez and Hernandez
NOES: None
ABSENT: None
ABSTAIN: None

MITIGATED NEGATIVE DECLARATION

Project: Locatelli Subdivision
Application #: 221077

APN(S): 029-391-01, 029-391-02,
029-391-03, & 029-061-19

Project Description: Proposal to demolish two existing residential dwellings and related outbuildings and to construct 24 semi-detached townhomes and one detached townhome for a total of 25 residential units. This project requires approval of a Subdivision, Planned Unit Development, Residential Development Permit with Density Bonus, Park Site Review, Roadway/Roadside Exception, and Preliminary Grading Review.

Project Location: The project is located on the southeast side of Mattison Lane within the community of Live Oak in unincorporated Santa Cruz County. Santa Cruz County is bounded on the north by San Mateo County, on the south by Monterey and San Benito counties, on the east by Santa Clara County, and on the south and west by the Monterey Bay and the Pacific Ocean.

Owner: Claudio Locatelli
Applicant: Swift Consulting Service
Staff Planner: Jonathan DiSalvo

California Environmental Quality Act Mitigated Negative Declaration Findings:

Find, that this Mitigated Negative Declaration reflects the decision-making body's independent judgment and analysis, and; that the decision-making body has reviewed and considered the information contained in this Mitigated Negative Declaration and the comments received during the public review period; and, that revisions in the project plans or proposals made by or agreed to by the project applicant would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur; and, on the basis of the whole record before the decision-making body (including this Mitigated Negative Declaration) that there is no substantial evidence that the project as revised will have a significant effect on the environment. The expected environmental impacts of the project are documented in the attached Initial Study on file with the County of Santa Cruz Planning Department located at 701 Ocean Street, 4th Floor, Santa Cruz, California. A digital copy of the document can be reviewed at the following web address:

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, County of Santa Cruz (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact County of Santa Cruz:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:

To contact us by email send messages to: nada.algharib@santacruzcounty.us

To advise County of Santa Cruz of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at nada.algharib@santacruzcounty.us and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from County of Santa Cruz

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to nada.algharib@santacruzcounty.us and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with County of Santa Cruz

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

- i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;
- ii. send us an email to nada.algharib@santacruzcounty.us and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: <https://support.docusign.com/guides/signer-guide-signing-system-requirements>.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify County of Santa Cruz as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by County of Santa Cruz during the course of your relationship with County of Santa Cruz.

MITIGATION MONITORING AND REPORTING PROGRAM for Application No. 221077

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|-----------------------------|---|---|-------------------------------|--|--|
| Biological Resources | | | | | |
| BIO-1 | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife, or U.S. Fish and Wildlife Service? | <p>To reduce potential impacts to sensitive habitats and special-status species that may result from artificial light, the following shall be adhered to:</p> <ul style="list-style-type: none"> A. The project shall avoid the installation of any non-essential artificial lighting. If artificial lighting is necessary, the project shall avoid or limit the use of artificial lights during the hours of dawn and dusk, when many wildlife species are most active. B. All essential outdoor lighting shall be limited through the use of timers and/or motion sensors. C. All essential outdoor lighting shall be shielded, cast downward, and directed such that it does not shine off the property into surrounding areas, other parcels, or the night sky. | Applicant | Compliance monitored by the County Planning Division | During construction, site grading operations, and ongoing |
| BIO-2 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>The final plans shall include the following:</p> <ul style="list-style-type: none"> A. The development footprint shall be delineated on the final project plans with a thick bold solid line. All temporary and permanent disturbance associated with the project including all grading, vegetation removal, buildings, utilities, paving, landscaping, access routes, and deposition of refuse or debris shall be within the delineated development footprint. Everything outside of the development footprint shall be marked on the plans as sensitive habitat and fenced for avoidance during construction. B. The final project plans shall clearly designate and label the entire portion of "Parcel A" east of the 50' riparian buffer line as "Protected Habitat Area". C. A plan sheet showing protected trees plotted and tree protection specifications. Measures to reduce impacts to retained trees shall be included in the final project plans. D. A plan sheet showing the mitigation planting areas as required in the Mitigations below. The 20' wide sanitation easement and the in the 25' storm drain easement shall be shown on this plan sheet where mitigation tree plantings may not occur. | Applicant | Compliance monitored by the County Planning Division | Prior to site disturbance, during construction, site grading operations, and ongoing |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|--------------|---|---|-------------------------------|--|---|
| BIO-3 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>To comply with Santa Cruz County General Plan Policy 5.1.12 (ARC-3.2.1) and SCCC Section 16.32.090 (B)(3), and to compensate for permanent loss of oak woodland habitat and riparian woodland habitat, the following shall be adhered to:</p> <ul style="list-style-type: none"> A. Oak trees removed as a result of this project (including the 11 trees removed prior to this biotic review) shall be mitigated through replacement plantings in kind either onsite or at an approved offsite location at the following ratios: <ul style="list-style-type: none"> 1. Trees less than 5 inches diameter at breast height (DBH) shall be replaced at 2:1; 2. Trees between 5 and 11.5 inches DBH shall be replaced at 3:1; 3. Trees between 12 and 23.5 inches DBH shall be replaced at 5:1; 4. Trees 24 inches or greater DBH shall be replaced at 10:1. B. Based on review of the attached reports and current project plans, the Environmental Coordinator has estimated a minimum of 62 oak trees must be planted (4 trees at the 3:1 ratio, 6 trees at 5:1, and 2 trees at 10:1). C. The project applicant may propose to pay into a County approved in-lieu fee program for oak tree removal compensation if such a program is available. This option must be considered only as a last resort and must be approved by the Environmental Coordinator. Alternative options considered and determined infeasible must be discussed in the Habitat Restoration and Mitigation Plan. D. Permanent impacts to riparian habitat shall be mitigated through on-site restoration of riparian habitat at a 3:1 ratio of restoration to impacts. All temporarily impacted areas must be restored at a 1:1 ratio through active planting of riparian species. Riparian mitigation sites must be located within areas appropriate for riparian vegetation such as areas that are contiguous to and affected by the hydrology of the creek or another source of hydrology. E. Riparian enhancement and/or restoration activities (i.e. removal and ongoing management of invasive species) commensurate with the proposed development shall occur within the existing riparian corridor located along the eastern portion of the Study Area. | Applicant | Compliance monitored by the County Planning Division | Prior to site disturbance, during construction, site grading operations, and ongoing |
| BIO-4 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal | <p>All Portions of Parcel A east of the 50-foot riparian buffer line shall be identified as "Protected Habitat Area" on the final subdivision map where development shall not occur in the future. The final subdivision map shall include the following notes:</p> <ul style="list-style-type: none"> A. No development as defined in Chapter 16.32 of the County Code (including, without limitation, removal of trees and other vegetation, grading, paving, installation of structures such as signs, buildings, or other structures of similar impact) shall occur within the Protected Habitat Areas with the exception of the following, subject to the Planning Director's review and approval: <ul style="list-style-type: none"> 1. The removal of hazardous substances or conditions or non-native or diseased plants or trees provided that such activities have been | Applicant | Compliance monitored by the County Planning Division | Prior to Recordation of the Final Subdivision Map, prior to site disturbance, during construction, site grading operations, and ongoing |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|--------------|---|---|-------------------------------|--|---|
| | zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>reviewed and approved by the Planning Director and determined as not involving the unnecessary disturbance of indigenous ground cover or native wildlife;</p> <p>2. Habitat restoration activities as outlined in the approved Habitat Restoration and Mitigation Plan including habitat management strategies to control re-establishment of invasive non-native species and maintain healthy native habitat.</p> | | | |
| BIO-5 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>A Habitat Restoration and Mitigation Plan prepared by a qualified biologist or restoration specialist shall be submitted for review and approval by Environmental Planning Staff prior to recordation of the final subdivision map. The establishment and planting of all restoration areas as outlined in this Plan must be completed prior to final inspection of the subdivision improvements for Phase I of the project. The Plan shall be focused on restoring and maintaining native plant structure and species composition of oak woodland and riparian habitats at the required ratios listed in BIO-3 above and must include the following minimum elements:</p> <ul style="list-style-type: none"> A. A map identifying Parcel A east of the 50 foot riparian buffer line as "Protected Habitat Area" where development shall not occur in the future. B. A map of all designated restoration areas on site. Restoration areas shall include areas intended for oak woodland habitat restoration, riparian habitat restoration, and areas designated for riparian enhancement and/or restoration activities. <ul style="list-style-type: none"> 1. Please note that plantings for mitigation cannot be located in the 25 foot drainage easement or the 20 foot sanitation easement. Both of these easements must be shown on the restoration maps and planting plans. C. A planting plan with species, size, and locations of all restoration plantings that will occur on site. The sizes and distribution of restoration plantings shall be determined by the restoration specialist with the goal of establishing native plant structure and species composition of healthy habitat while maximizing plant health and survivability of individual plants. <ul style="list-style-type: none"> 1. The planting plan shall include as many of the 62 replacement trees required under BIO-3.A above as can be planted on-site while maintaining this goal. If there is not adequate room on site to plant all the required replacement oak trees in a configuration that creates a healthy oak woodland habitat, the remaining plantings shall occur at a designated off-site location. D. Identification of any off-site location required for replacement oak tree plantings including a map of all designated restoration areas on that site and a planting plan with species, size, and locations of all restoration plantings. <ul style="list-style-type: none"> 1. Property owner approval for a deed restricted mitigation site must be provided for any off-site mitigation locations. An agreement for ongoing access to monitor and maintain the plantings for the required monitoring period must also be included. | Applicant | Compliance monitored by the County Planning Division | Prior to Recordation of the Final Subdivision Map, prior to site disturbance, during construction, site grading operations, and ongoing |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|--------------|---|---|-------------------------------|--|--|
| | | <p>E. If applicable as outlined in BIO-3C above, a proposal to pay into a County approved in-leu fee program for oak tree removal compensation including a discussion of the alternative options that were considered.</p> <p>F. Plan for removal of non-native species on the project site and a management strategy to control re-establishment of invasive non-native species.</p> <p>G. Plan for riparian enhancement and/or restoration activities within the existing riparian corridor including methods for removal and ongoing management of invasive species and establishment or re-establishment of native habitat which may include specific treatments to promote natural re-establishment.</p> <p>H. Information regarding the methods of irrigation for restoration plantings.</p> <p>I. A plan showing the placement of wildlife friendly split rail fencing and location of signs as needed to delineate the Protected Habitat Areas in the field and prevent trespassing. The location of wildlife friendly fencing and number and location of protective signs shall be confirmed by the biologist based on site conditions and maximum protection of these habitat areas.</p> <p>J. Any seed mix used for erosion control purposes on temporarily impacted areas and exposed soils shall be limited to seeds of native species common to the surrounding habitat and/or sterile seeds.</p> <p>K. A 5-year Management Plan for maintenance and monitoring of restored areas, including a proposed mechanism for evaluating success.</p> | | | |
| BIO-6 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | Annual reports outlining the progress and success of the restoration and monitoring shall be submitted to the County Restoration Coordinator: restoration.coordinator@santacruzcountycal.gov by December 31 st of each monitoring year. Monitoring reports shall be submitted annually from year 0 through 5 and a final report shall be submitted year 10. | Applicant | Compliance monitored by the County Planning Division | Ongoing |
| BIO-8 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional | <p>A focused rare plant survey shall be completed during the identifiable period for all special-status plants with potential to occur and submitted with the permit application for subdivision improvements for Phase I of the project for review and approval by Environmental Planning.</p> <p>A. | | plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>required.</p> <p>B. If any special-status plant is found present in the project impact area, the population shall be mapped and avoided as a sensitive habitat area as outlined in BIO-9 below.</p> <p>1. If avoidance is not possible, project construction may not commence until additional biotic approval from County Planning is received. Additional impact analysis (demonstrating adequate avoidance, minimization, and mitigation) shall be completed and reviewed by County Planning. Additional environmental analysis may be required based on the results of this review and analysis.</p> | | | ongoing |
| BIO-9 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>To protect sensitive habitats and special-status species during project related construction activities, the following shall be adhered to:</p> <p>A. Prior to any site disturbance, a pre-construction meeting shall be conducted. The purpose of the meeting will be to ensure that the biotic Conditions of Approval are communicated to the various parties responsible for constructing the project. The meeting shall involve all relevant parties including the project proponent, construction supervisor, Environmental Planning Staff, the project biologist, and the project arborist.</p> <p>B. Every individual working on the Project must attend biological awareness training prior to working on the job site. The training shall be delivered by a qualified biologist and shall include information regarding the location and identification of sensitive habitats and all special-status species with potential to occur in the project area, the importance of avoiding impacts to special-status species and sensitive habitats, and the steps necessary if any special-status species is encountered at any time.</p> <p>C. Prior to commencement of construction, high visibility fencing and/or flagging shall be installed with the assistance of a qualified biologist around all sensitive habitat areas to indicate the limits of work and prevent inadvertent grading or other disturbance within the adjacent sensitive habitat.</p> <p>1. No work-related activity including equipment staging, vehicular access, grading and/or vegetation removal shall be allowed outside the designated limits of work.</p> <p>2. Native trees to be retained near or within the project impact area shall be identified, protected with high visibility fencing at or outside of the dripline, and avoided during construction as sensitive habitat unless additional protection measures, provided by a qualified arborist, have been reviewed and approval by Environmental Planning Staff.</p> <p>3. The fencing shall be inspected and maintained daily until project completion.</p> <p>4. A qualified biologist shall be on site to monitor vegetation removal and initial ground disturbance activities that occur within the riparian corridor (including clearing and grubbing) to identify and recover any</p> | Applicant | Compliance monitored by the County Planning Division | Prior to site disturbance, during construction, site grading operations, and ongoing |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|---------------|---|---|-------------------------------|--|--|
| | | <p>special-status species that may be found.</p> <p>5. If a special-status animal is identified at any time prior to or during construction, work shall cease immediately in the vicinity of the individual. The animal shall either be allowed to move out of harm's way on its own or a qualified biologist shall move the animal out of harm's way to a safe relocation site. The biologist shall be allowed enough time to move any special-status species from the site before work activities begin. All sightings of special-status species shall be reported to the County Environmental Coordinator and submitted to the CNDDB.</p> | | | |
| BIO-10 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>A. Per CDFW comments, a qualified biologist shall conduct focused surveys for western pond turtle 10 days prior to Project implementation using a best available methodology for the intended purpose CDFW maintains a list of recommended survey protocols for western pond turtle and other fish and wildlife species online at: https://wildlife.ca.gov/Conservation/Survey-Protocols#377281283-reptiles. If any western pond turtles are discovered at the site immediately prior to or during Project activities, they should be allowed to move out of the area on their own. If a western pond turtle is unable to move out of the Project area on its own, a qualified biologist shall relocate western pond turtle out of the Project area into habitat similar to where it was found. If a western pond turtle egg clutch is discovered at any time prior to or during construction, work in the vicinity of the egg clutch shall be halted immediately. Unless otherwise advised by CDFW, the nest location shall be protected with high visibility fencing under the guidance of a qualified biologist and shall be avoided until the biologist determines that the clutch has hatched and individuals are no longer likely to be injured by work activities.</p> <p>B. The following Recommended Avoidance and Minimization measures BIO-1, BIO-2, BIO -5, and BIO-7 of the attached updated Biotic Report dated October 25, 2023, prepared by Biotic Resources Group shall be adhered to. <i>(Note: The recommended mitigation numbering from the report below does not conform with the initial study mitigation numbering presented in this document. They are provided here for reference to the attached biotic report).</i></p> <p>1. BIO-1. Dusky-footed Woodrat. Retain all woodrat houses (middens) on the property. No earlier than two weeks prior to the start of project activities, a qualified biologist should perform a pre-construction survey for woodrat houses within the project work boundaries and a 25-foot buffer around the project site perimeter. Flag and establish buffers around each woodrat house observed. The buffer width will be determined by the qualified biologist, but will not be less than 5 feet. If a woodrat house is present and impacts cannot be avoided, then a qualified biologist shall contact CDFW for approval to implement a woodrat relocation plan. This could involve live trapping and the construction of alternate houses in adjacent suitable habitat. The woodrat relocation plan must be implemented by a qualified biologist</p> | Applicant | Compliance monitored by the County Planning Division | Prior to site disturbance, during construction, site grading operations, and ongoing |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|-----|-----------------------|---|-------------------------------|----------------------|----------------------|
| | | <p>possessing a Scientific Collection Permit authorizing the handling of woodrats. Authorization by CDFW must be obtained prior to the implementation of this measure. Post-relocation monitoring may be required by CDFW, as part of the plan.</p> <p>2. BIO-2. Bats. Removal of trees and abandoned buildings could result in the loss of roost sites or abandonment of bat roosts through noise or vibrations. Maternity roosts are most important as negative impacts can have broad, far-reaching effects, since such roosts are critical for reproduction and can support multiple generations of bats. Investigations, analysis and focused surveys should begin in advance of Project initiation. A qualified biologist should conduct a habitat assessment within the Project limits for suitable bat roosting habitat. The habitat assessment shall include a visual inspection, sound analysis survey and night roost exit survey. The surveys should focus on features within 200 feet of the work area for potential roosting features including trees, crevices and hollow areas (bats need not be present). No more than 30 days prior to demolition/tree removal, the bat ecologist should investigate the interior of the outbuildings to determine if any bats have been using the structures. The bat ecologist should also check the oak trees and any other features that may support bat roosting to determine if any have cavities suitable for bat roosts. If there is no evidence of bat use (e.g., guano or observation of individuals), then the openings shall be secured/covered to prevent bats from entering prior to demolition and no further mitigation will be required. If bat use is detected, then schedule outbuilding demolition and tree removal to occur between August 15 and February 1 of any given year to avoid the bat breeding season for this part of the central coast. In addition, the bat ecologist shall conduct a focused survey no more than two weeks (14 days) prior to structure demolition and tree removal to determine if bats are currently using either. If no bats are occupying the outbuildings or tree cavities, then demolition may proceed. If bats are observed using the outbuildings or tree cavities, then the bat ecologist, in coordination with CDFW, will recommend methods to either allow bats to leave the outbuildings and trees and not return (exclusion devices), or other methods specific to this demolition project to avoid harm to individual bats. Trees without cavities may have foliage roosting bats occasionally. To avoid harm to individual bats, trees shall be cut down and allowed to lie on the ground for 24 hours prior to chipping, to allow any foliage roosting bats to leave on their own. If potentially suitable bat roosting habitat is determined to be present a qualified biologist shall conduct focused surveys utilizing night-exit survey methods, sound analyzation equipment methods and visual inspection from March 1 to April 15 or September to October 15 prior to construction activities. If the focused survey reveals the presence of roosting bats, then the appropriate exclusionary or avoidance measures will be implemented prior to construction during the period between March 1</p> | | | |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|-----|-----------------------|---|-------------------------------|----------------------|----------------------|
| | | <p>to April 15 or September 11 to October 15. Potential avoidance methods may include temporary, exclusionary blocking, one way-doors or filling potential cavities with foam. Methods may also include visual monitoring and staging of work at different ends of the Project to avoid work during critical periods of the bat life cycle to allow roosting habitat to persist undisturbed throughout the course of construction. Exclusion netting or adhesive roll material shall not be used as exclusion methods. If presence/absence surveys indicate bat occupancy, then construction should be limited from occurring during the species maternity period. Temporary structures should be installed at the site provide habitat for the timeframe when access to the roosting feature is excluded until construction is complete. If structures utilized for roosting are permanently altered as a result of construction the lead agency should design and install permanent roost structures in coordination with CDFW. Please reference the Caltrans Bat Mitigation: A Guide to Developing Feasible and Effective Solutions Manual (H.T. Harvey, 2019) for more information.</p> <p>3. BIO-5. Oak Trees. Avoid construction/development within the dripline of oak woodland vegetation that is to be retained. Implement protective measures around all retained oak trees, as directed by an arborist. Measures may include protective fencing, supervised pruning of limbs and roots, other measures as determined by the arborist.</p> <p>4. BIO-7. Nesting Birds. To avoid impacting nesting birds, if present, schedule tree removal and construction to occur between September 15 and January 15 of any given year, which is outside the bird nesting season. If tree removal and/or construction is to occur within the bird breeding season (January 15 – September 15), perform pre-construction nesting bird surveys within one week before the scheduled start of the project. If Project-related work is scheduled during the nesting season (typically February 15 to August 30 for small bird species such as passerines; January 15 to September 15 for owls; and February 15 to September 15 for other raptors), a qualified biologist shall conduct two surveys for active nests of such birds within 14 days prior to the beginning of Project construction. with a final survey conducted within 48 hours prior to construction. Appropriate minimum survey radii surrounding the work area are typically the following: i) 250 feet for passerines; ii) 500 feet for small raptors such as accipiters; and iii) 1,000 feet for larger raptors such as buteos. Surveys shall be conducted at the appropriate times of day and during appropriate nesting times. The nesting survey should be performed by a qualified biologist and cover the entire property, since potential nesting raptors may require buffers at a minimum of 300 feet. In the event active nests are observed, the nest site shall be flagged and a buffer shall be established, in an effort to prevent nest failure. The buffer widths shall be determined by the qualified biologist, based on species, site conditions and anticipated construction activities. Active nests should be monitored at a frequency determined by the</p> | | | |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |
|-----------------------|---|--|-------------------------------|--|--|
| | | <p>monitoring biologist, but at a minimum of once per week, until the nestlings have fledged. In the event that construction activities appear to be interfering with nest maintenance (e.g., feedings and incubation), then the buffers should be enlarged or construction activities postponed, until the young have fledged, as determined by the qualified biologist.</p> <p>C. A brief memo summarizing the results of the preconstruction surveys outlined above shall be submitted to the Resource Planner at the preconstruction meeting.</p> | | | |
| BIO-11 | Have a substantial adverse effect on any riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations (e.g., wetland, native grassland, special forests, intertidal zone, etc.) or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | <p>Prior to final inspection of the subdivision improvements of the project, the following shall occur:</p> <p>A. Establishment and planting of all restoration areas as outlined in the final approved Habitat Restoration and Mitigation Plan and placement of protective fencing and signs around the Protected Habitat Area shall be inspected and approved by Environmental Planning staff.</p> <p>B. Receipt of full payment into any approved in-lieu fee program must be provided to the County.</p> | Applicant | Compliance monitored by the County Planning Division | Prior to Permit Final |
| Transportation | | | | | |
| TR-1 | <i>Would the project conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)(1) (Vehicle Miles Traveled)?</i> | <p>The following measures will be required to reduce VMT by encouraging active transportation in the project area with improvements to pedestrian and bicycle networks and facilities, including:</p> <p>A. Construction of a new sidewalk within the project site that would connect the townhouses to the existing sidewalks on Mattison Lane.</p> <p>B. Pedestrian and bicycle access would be provided on the west side of the project site that allows for future connection to an adjacent development that would front on Maciel Avenue. This connection would set in place a pedestrian and bicycle connection to Maciel Avenue when the adjacent property develops, which would then provide continuous sidewalk access to the bus stops on Capitola Road, which is located about 1,000 feet away.</p> <p>C. The project would implement bike facility measures to reduce VMT of the project. A bicycle repair station would be installed in the park on the project site to reduce VMT of the project. The bicycle repair station can provide repair tools and space to use them and would support the continual use of bicycles for transportation in and out of the project site.</p> <p>D. A 20-foot wide pedestrian and bicycle easement would be dedicated to</p> | Applicant | Compliance monitored by the County Planning Division | Prior to Recordation of the Final Subdivision Map, ongoing |

| No. | Environmental Impacts | Mitigation Measures | Responsibility for Compliance | Method of Compliance | Timing of Compliance |

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, County of Santa Cruz (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact County of Santa Cruz:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:

To contact us by email send messages to: nada.algharib@santacruzcounty.us

To advise County of Santa Cruz of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at nada.algharib@santacruzcounty.us and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from County of Santa Cruz

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to nada.algharib@santacruzcounty.us and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with County of Santa Cruz

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

- i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;
- ii. send us an email to nada.algharib@santacruzcounty.us and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: <https://support.docusign.com/guides/signer-guide-signing-system-requirements>.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify County of Santa Cruz as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by County of Santa Cruz during the course of your relationship with County of Santa Cruz.
